PROFESSIONAL OBJECTIVE:

I am looking for my first internship, motivated by the desire to transform my theoretical knowledge into innovative and impactful practices. I have developed a passion for web development and a solid foundation in HTML, CSS and JavaScript. I am eager to collaborate on challenging projects and contribute to the success of a dynamic and creative team.

ACADEMIC BACKGROUND:

Bachelor of Computer Science (Current)

2022 - 2025 • Instituto Mauá de Tecnologia (IMT)

PROFESSIONAL EXPERIENCE:

Front-End Developer • November, 2024 (Current).

- I work as a Front-End Developer (Freelance) on a project for a StartUp called INOVV Solucoes. The project is called iCreator, a platform that facilitates contact between digital influencers and brands that are looking for publicity. In this project, we use React, TypeScript, TailwindCSS, Hexagonal Architecture and Git/GitHub, in addition to agile methodologies for software development and delivery.

PROJECTS:

WebApp Extintores • ReactJS, CSS, Node.js, PostgreSQL, Postman

- WebApp Extintores was developed as a proposal for an Interdisciplinary Integration Project by IMT, in partnership with the São Paulo Metro. This project aimed to create an application that would facilitate the management of fire-fighting equipment at the São Paulo Metro. To this end, I built a Web application with cutting-edge technologies, a minimalist design and an intuitive interface, with the user experience in mind.

SKILLS:

- Technologies / Tools
 - HTML
 - CSS
 - JavaScript
 - TypeScript
 - React
 - TailwindCSS
 - SQL/NoSQL
 - Git/GitHub
 - Hexagonal Architecture

IDIOMS:

- Portuguese - Fluent/Native
- English - Advanced
- Spanish - Intermediate

CERTIFICATIONS:

- HTML5 - OneBitCode, 2024.
- CSS3 - OneBitCode, 2024.
- JavaScript - OneBitCode, 2024.
- AWS Academy Cloud Foundations - AWS, 2023.
